Havemeyer Firemen.

The Williamsburg police admit to-day

that the strike of firemen at Havemeyer's sugar refinery, in Williams-burg, is assuming a serious aspect. The thirty-two firemen and helpers employed in the Brooklyn Sugar Refinery at the foot of South Second street went out on strike last night the Havemeyer plant has been borrow

ing steam power from them. Police Capt. Martin Short was at once notified, and the force of police on once notined, and the force of police of duty around the sugar-houses was doubled. The men present included details from the Sixth Seventh, Thirteenth, Sixteenth, Nineteenth and Twenty-first Precincts.

Perfect order was preserved by the strikers during the morning, and Master Workman O'Reilly stated that there was no need for the additional force of police.

was no need for the additional force of police.

"We go around the factories whenever we desire." he said, "and the police have not even had to order a man away. Why one officer with a straw could preserve order so far as we are concerned."

away. Why one officer with a straw could preserve order so far as we are concerned."

Bupt. Bendernagle, of the Havemeyer refinery, says that 97 of the 113 boilers are in operation, and that they have nearly all the men they want at work. The men allege, on the contrary, that the new workmen are thoroughly incompetent, and yesterday the engineers, boiler and water tenders and other skilled mechanics who understand the management of fires, were put to work on the boilers, and, at the same time, were expected to coach the new men. Some of the mechanics did as requested, but others quit and joined the strikers. Both the factories involved in this strike are member of the trust, and the bosses are not worrying themselves over it irom a financial point of view. As an official of the Brooklyn Sugar Refinery said to-day:

"What do we care? We will get these men or others to do our work. Of course, having the factory stopped prevents us from making sugar, but if we were thoroughly shut down for two months, then the price of sugar would be raised a point or so, and we would make money instead of losing it."

During the forenoon the strikers held a meeting at 136 Broadway, and cheered one another up. It was said that the new men at work are mostly ignorant Poles, who never saw a fire before they were ounded into the fire-room.

Scandal Brewing in the New Fourteenth Armory Building.

There is another scandal among the city officials of Brooklyn that bids fair equal in detail the Columbian cele station affair.

the bids for work on the new armory are said to have been submitted and paid twice.

Building Commissioner Rutan was given the contract for excavating and found that it would be necessary to drive piles for the new buildings. The matter was laid on the table.

Later Supervisor-at-Large Kinkel found that the work was not necessary.

Fifteen months later Lawyer McTernan put in a bill of \$2,900 for acquiring the property. The bill was paid.

A few weeks ago McTernan submitted another bill of \$7,500 for services in acquiring the same property.

The Mayor was asstounded.

Both bills have been paid, and it is said that the matter will be brought before the proper authorities for investigation.

Avenue Congregational Church, to cost \$60,000, with a seating capacity of 1,200, was laid this afternoon at Madison street and Lewis avenue, Brooklyn.

The pastor of the church, Rev. Robert J. Kent, put the stone in place, and a number of prominent preachers spoke. The edifice will be built of light-colored brick on a brown-stone foundation, and trimmed with terra cotta.

In the lead box to go into the cornerstone will be a list of the members of the church, of the contributors to the building fund, and copies of the newspapers.
